NEW RELEASE

**Envision One Mechanical
FACTORY DIRECT TO
CARIBBEAN
USD 23,600**

Created by one of the most experienced teams of engineers in 3D printing, the Envision One cDLM is the largest, most advanced desktop 3D printer ever created. It is bigger, faster, easier to use and more innovative than all the other 3D printers on the market.

Designed to take you from beginner to expert in a single machine, the Envision One cDLM is the only professional 3D printer you'll ever need. EnvisionTEC delivers an end to end solution including design software parameter optimization to deliver accurate parts every time with minimal supports.

Pricing Includes: • Machine • Starter Resin • Curing Oven • Training • Maintenance

NEW RELEASE

**Vida UHD cDLM
FACTORY DIRECT TO
CARIBBEAN
USD 58,355**

The Vida UHD cDLM is a high-speed continuous 3D printer with ultra high definition for the jewelry, dental and general manufacturing markets. This printer is the highest resolution offering EnvisionTEC's patented Continuous Digital Light Manufacturing technology and also offers blazing speeds. In addition, the technology also reduces the need for support structures during 3D builds, meaning less finishing is necessary.

Pricing Includes: • Machine • Starter Resin • Curing Oven • Training • Maintenance
